Professional Experience
Attorney Li is a practicing attorney at Highking. He worked as associate attorney in the law firms of Beijing GuanTao, Beijing Zhonghe, and Beijing Jiaming before joining Highking.

Practice Areas
Attorney Li's main areas of practice include state-owned asset management, corporate legal affairs, film and television investment, M&A and restructuring of companies and financial institutions, restructuring of non- performing assets and litigation and arbitration of major commercial cases. During his practice, Attorney Li has focused on state-owned assets management, film and television investment and other business areas.
He has been engaged in state-owned assets and corporate legal affairs for many years, providing special legal services for dozens of large state-owned enterprises such as Beijing Capital Group, Beijing Capital Highway Development Group Co. Ltd, and Beijing Instrument Industry Group Co. Ltd. He has solid theoretical knowledge and rich practical experience in the field of state-owned assets management. He has participated in the design and formulation of the risk prevention system for state-owned enterprises, which has been adopted by many. In the course of the above special legal services, he has successfully undertaken a large number of enterprise restructuring and property rights transfer cases to safeguard the interests of clients to the maximum extent.
Attorney Li also has substantial project experience in film and television investment, and is familiar with the management and operation of film and television companies, as well as film and television investment projects, intellectual property protection and other special legal affairs. Attorney Li now serves as counsel for a number of film and television companies and has provided legal services for a number of large film and television productions. He has extensive legal knowledge and can provide unique insights in law, having successfully acted as agent for Tietong Company v Feng, in a dispute over shareholders' damage to creditors' interests. This case became the first shareholder's dispute over damage to creditors' interests to be accepted by the Beijing courts after the promulgation of the "Proceedings of the National Conference on Civil and Commercial Judicial Work of the Courts". In this case, Attorney Li successfully protected the legitimate interests of his client by combining his skillful knowledge of jurisprudence with the new regulations of the Supreme Court. The case has become a recommended case by Beijing High Court.
Attorney Li has been a practicing lawyer for more than 20 years and has rich experience. With a rigorous and pragmatic working style, quick intellect, strong dedication to his work, solid business skills, practice quality and quality services, he has won the recognition and respect of many clients.
